Investing in **green** solutions of the future

Michael Zöllner
Ressource City konference
25 May 2022

Humanity is all over
- how do we handle that fact?

It is all about transformation

Our investment approach is about **green** transformation

Philanthropy is not enough

EXAMPLES OF PORTFOLIO COMPANIES

What we do

WE BUILD BRIDGES FOR **GREEN** COMPANIES
TO THE PRIVATE CAPITAL MARKET
THROUGH RISK WILLING PUBLIC CAPITAL

OUR FIVE GREEN AND SOCIAL ASSESSMENT CRITERIA

1

Purpose and technological focus

2

Contribute to at least one of EU's environmental targets

3

Greener than the alternative

4

No significant negative impact on the environmental targets

5

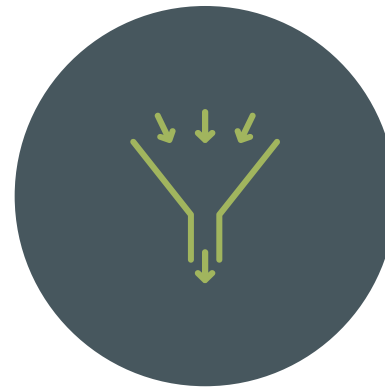

CSR minimum standards

The importance of resource efficiency is increasing

31% OF THE PROJECTS IN OUR PORTFOLIO
RELATE TO RESOURCE EFFICIENCY

39% OF THE PROJECTS IN OUR PIPELINE
RELATE TO RESOURCE EFFICIENCY

Three examples from our portfolio

Sustainable clothing production

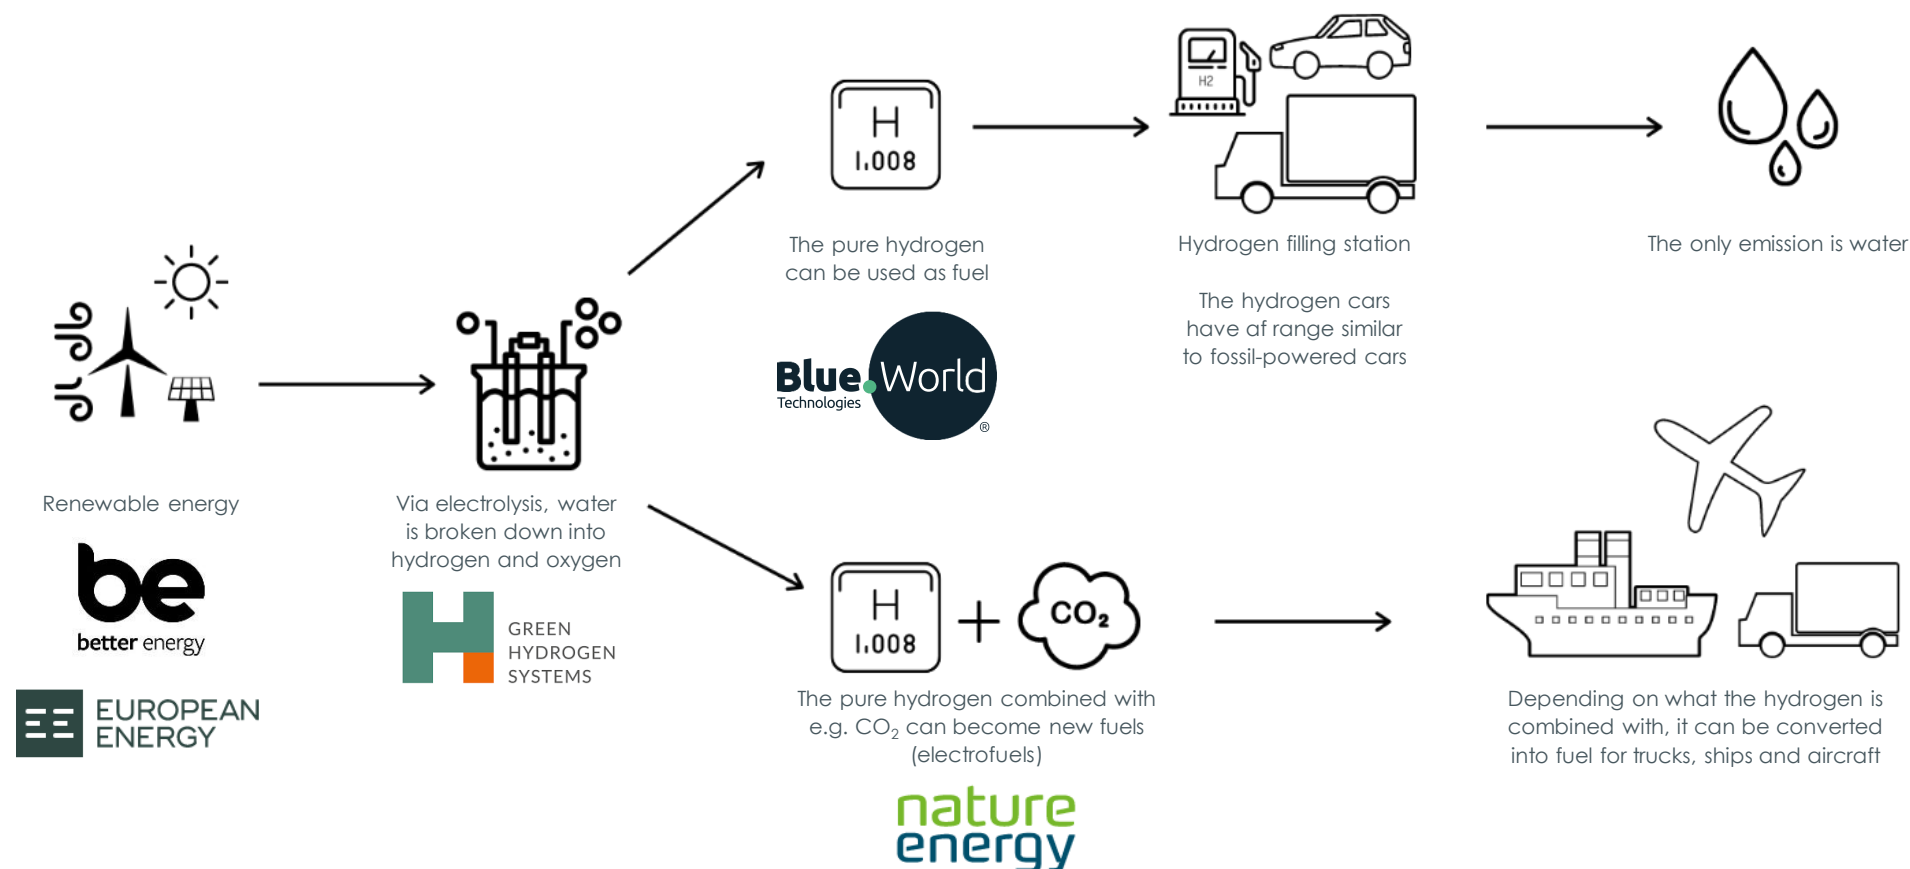

Conversion of plastic waste to low-carbon diesel

Insect production using upcycled biomass

Falling cost curves of energy will drive green transformation and circular business models

THANK YOU
